

## PHYSICS IN EVERYDAY LIFE

# POSTER CONTEST

In honor of the World Year of Physics, Lawrence Livermore National Laboratory is inviting young scientists to break out the crayons, felt tips and colored pencils and put their artwork and scientific know-how to the test.

Show us how physics is an important part of the sports you play, the television or computer in your home, or the bike or skateboard you use to get to school.

Come up with any idea you like — you don't have to explain the physics, just show us how physics is involved in everyday life.

### Rules

1. Posters should be on standard size poster paper (24" x 28").
2. No toxic materials will be allowed as media on posters.
3. All entries must include a 3" x 5" index card affixed to the back of the poster. The card should include a description of the poster, and list the student's name, grade level, address, telephone number, e-mail address (if available) and school name.
4. Posters will be judged on the following criteria:  
20% appearance and neatness  
20% originality  
30% content  
30% relevance

### Guidelines

1. Contest is restricted to 4th and 5th grade students.
2. Only one poster per contestant.
3. Posters are to be delivered to the LLNL Public Affairs Office no later than May 9.
4. Posters will be judged by a panel selected by LLNL.
5. A winning contestant will be selected from each grade level. A \$50 prize will be awarded to each winner.
6. Winners will be notified by telephone or e-mail on May 23.
7. Winning posters will be on display in the LLNL Discovery Center and elsewhere at the Laboratory through the remainder of the school year.
8. Students will be contacted when posters are available to be returned.
